American Education Center proudly presents DynEd, the world's most comprehensive lineup of award-winning, computer-based English Language Teaching (ELT/ESL) solution.

AEC KEY FEATURES & BENEFITS

Offers students more chances to practice

Keeps track of students' study progress

Allows student to study at their own pace

Uses brain-based approach in learning (Visual, Auditory, Conceptual)

Reduces learning time and cost by 50% compared to traditional learning

Allows student to build speaking confidence and fluency

Uses a blended-learning approach - an effective learning method which combines classroom & computer-assisted language lab

Certificate recognized by DynEd USA and worldwide

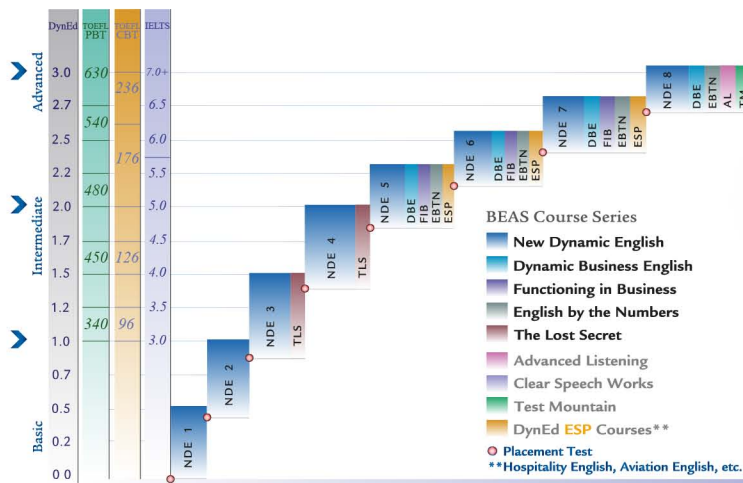

Learners are active, not passive. Within a lesson, students learn to understand and speak English in real-time – understanding what they hear as they hear it, and speaking without needing time to stop and think first.

ENGLISH LANGUAGE ACQUISITION

RECURSIVE HIERARCHICAL RECOGNITION

This breakthrough language learning approach resonates with how the human brain has evolved to search for, recognize and employ language patterns. AEC's unique "iconic" approach coordinates visual and contextual information with auditory input in ways not possible with textbooks.

ENGLISH PROFICIENCY LEVEL
